

MINDDFUL THINKING

The recent O'Neil Fundraiser hosted by MINDD patrons, Victoria & Patrick O'Neil at their Eastern Suburbs home for was an outstanding success and it is with great excitement

that Mindd Foundation announces the opening of the new Mindd Centre for Integrative Healthcare at 2 New McLean Street, Edgecliff mid-2012.

The Centre will provide Integrative treatments including nutritional medicine, musculo-skeletal care, speech therapy, psychology and a range of neuro and behavioural therapies. The facility will also encourage community knowledge through education programs and provide a retail outlet that promotes a healthy lifestyle.

Mindd Foundation's mission is to fast track effective treatments to children during critical periods of their development in response to conditions that have risen dramatically in the past generation including; allergies, asthma, ADHD and Autism as well as digestive, sleep, mood, learning and sensory processing disorders.

The rise in childhood disease signals a need for preventative healthcare that focuses on cellular health by optimising nutrient intake while minimising toxins.

The Mindd Foundation Advisory Board includes Dr Martha Herbert, Paediatric Neurologist, Harvard University and Professor Michael Fennech, CSIRO.

For all enquires about the new Mindd Centre for Integrative Healthcare please call (02) 9337 3600 or email info@mindd.org
